

Product Overview & Capability Guide

PRODUCT MANAGEMENT • ENTERPRISE AI OS

1. Product Vision

The Knowledge OS empowers enterprise teams to interact conversationally with complex, unstructured corporate knowledge in real time.

2. Core Features

Semantic Vector Search, Automated Document Summarization, Multi-Format File Parsing (PDF/CSV/JSON), and Fine-Grained Access Control.

3. Release Schedule & Changelog

Version 2.0 introduces multi-modal vector search, optimized hybrid retrieval (BM25 + Dense Vectors), and real-time document sync.
